

1. If opening the zip file, than directly run the android or iOS project

iOS : Double click the file and run in Xcode - open DechnicalDis -> iOS -> DechnicalDis.xcworkspace or cd to DechnicalDis in terminal and run the command react-native run-ios

Android: cd to DechnicalDis in terminal and run the command react-native run-android

2. If downloading from gitHub: cd to the project and run the command yarn install
